

BUILT TO MEET YOUR NEEDS

NDI uses a "Client-Centered Approach" and will work with you to assess and identify your specific needs. We understand how frustrating it can be to wait days for reports. Our operational efficiencies have been designed to meet the needs of our clients, delivering accurate reports in a timely manner.

We have developed a proprietary PACS solution, PerfectPACS, which has streamlined our workflow with maximum efficiency. Perfect PACS allows for remote data entry by technologists. Patient demographics are transmitted with patient images and immediately delivered to our radiologists according to the expertise needed for the most accurate interpretation. Reports are delivered online in a secure HIPAA compliant environment. We can incorporate logos or adjust the margins in our reports to meet your needs.

OUR MISSION

Our mission is to provide exceptional patient care through our partners, imaging facilities, hospitals and referring physicians. Our core values are based on our quality of service and clinical expertise.

NDI

WAS FOUNDED by David Berns, M.D., a published and academically trained radiologist based in Cleveland, Ohio. He directs a

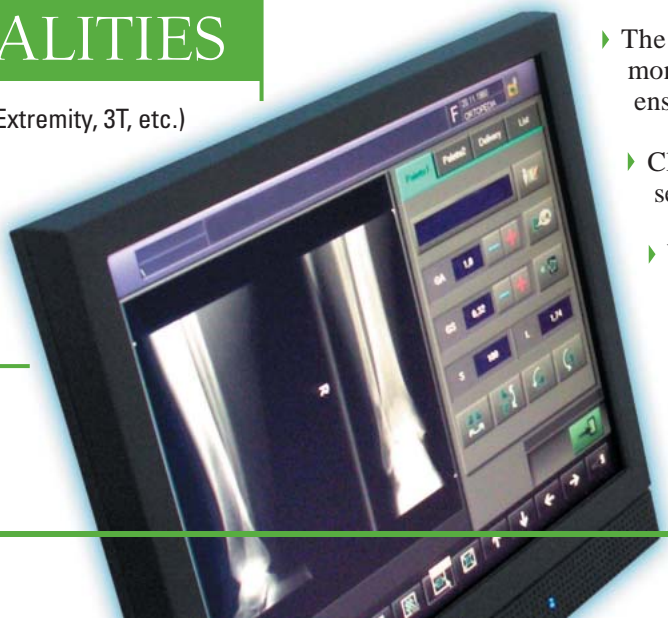

national team of board certified and fellowship trained specialists with extensive experience providing superior diagnostic interpretations. Prior to the development of NDI, Dr. Berns led one of the largest radiology practices in the Midwest.

Our clients include imaging centers, orthopedic practices, neurosurgeons, oncologists and hospitals. NDI's clinical expertise consists of dedicated musculoskeletal, neurological, oncological, body and cardiovascular specialists.

The NDI management team has collectively opened and managed over 50 imaging centers in addition to vast experience in teleradiology development and radiology practice management.

MODALITIES

- MRI (Open, Extremity, 3T, etc.)
- MDCT
- Ultrasound
- PET
- X-Ray

CLIENT WORKFLOW... THE NDI ADVANTAGE

NDI has developed a highly sophisticated, yet user friendly PACS, PerfectPACS, which is supported by our I.T. staff and ensures a seamless, extremely efficient workflow for our clients as described below.

- ▶ NDI handles the onsite installation of a router gateway and connectivity for our clients. We also have onsite training in the use of PerfectPACS.
- ▶ Technologist enters patient demographics information into modality and lists rule-out in comments field. No faxing or additional paperwork required. PerfectPACS reads the DICOM headers.
- ▶ Images & patient demographic information transmitted to NDI PerfectPACS.
- ▶ PerfectPACS immediately forwards the images and patient demographic information to the sub-specialty radiologist assigned.
 - ▶ Reports are dictated, reviewed and made available to the client online.
- ▶ The NDI support staff constantly monitors and audits PerfectPACS to ensure rapid report delivery.
- ▶ Clients can query past reports online, securely, 24 hours per day.
- ▶ While NDI uses PerfectPACS for its daily operations, it is also available for purchase, built to meet your needs.
- ▶ For more information or to purchase PerfectPACS for your facility, e-mail info@ndximaging.com.

IMAGING DEVELOPMENT RESOURCES

NDI combines clinical expertise with decades of professional management, development and ownership in medical imaging facilities. From concept to completion, our team can address your imaging needs whether it's a stand alone MRI build-out or a multi-modality facility. We want to ensure that your project is a success. We are also interested in joint venture and partnership opportunities.

Consultation is available for the following services:

- Investment & Financing Options
- Equipment Selection / Acquisition & Supply Chain Management
- Regulatory & Licensing Requirements
- Medical Coding & Billing
- Insurance & Pre-Certification
- Marketing & Sales Consultation
- Daily Operation & Facility Management
 - PACS Integration & Archiving Solutions
 - I.T. Support & Consultation
 - Professional Interpretations

FAST REPORT DELIVERY

- STAT Reports delivered within 2 hours.
- Standard reports delivered within 10 hours or less.
- Reports delivered electronically, securely.
- Automatic data transmission of patient demographics from modality. No faxing.
- HIPAA compliant.
- Direct access to radiologists.
